

DIAMOND GUARD 530

Diamond Guard 530 is a premium protective film which is used extensively as a means of protection on broken glass prior to replacement. Its application is intended to provide a safety barrier and to help prevent broken glass from falling out as well as providing a degree of waterproofing and security. Diamond Guard 530 film can assist in complying with OH&S requirements when glass breakage occurs in public areas such as schools, shopping centres etc.

Benefits

- Easily applied by hand - no specialist equipment required.
- Self adhesive, does not require tape or additional fixing.
- Stays in place - once smoothed into position Diamond Guard 530 will not fall away.
- UV protected - can be left for up to 3 months.
- Helps meet OH&S requirements.

Application Instructions

- This product is for application to smooth substrates, do not use on textured or porous surfaces.
- Avoid stretching film during application.
- Always check that Diamond Guard 530 is stuck firmly to substrate before commencing work.
- A test area is always recommended prior to full application.
- It is the users responsibility to determine suitability for use. If in doubt contact technical services for advice.

Uses

- Automotive, public building, schools, hospitals.
- Securing broken glass – preventing injury and reducing clean-up.
